Stereoscopic views will be shown, illustrative of the lands, forests, and mineral areas in Alberta and Saskatchewan together with the facsimiles of the original documents, tenders, etc., in connection with the same. M. S. McCarthy, M.P., C. Hiebert, M.P.P., Geo. F. Root and other speakers will make short addresses. The meeting will commence at 8 o'clock.

Mr. Ames will also address meetings at Olds on Friday, August 21st, and at Lacombe on Saturday, August 22nd.

EVARTS HARVEST PICNIC.

Fine Weather,
 A Big Crowd,
 Stirring Addresses.

The thriving village of Evarts was the scene of unusual festivities yesterday. Sturdy and well-to-do settlers gathered from near and far to take part in the picnic announced by posters to take place on the athletic grounds. A large contingent drove out from Red Deer, and others drove in from Sylvan Lake and other points. The grounds were nicely decorated with flags, and a stand was erected for the accommodation of the Red Deer Brass Band which discoursed sweet music during the day. Mine host Killick, of the Parker House, provided the victors with a sumptuous repast which was enjoyed to the utmost, after which a procession was formed, headed by the band, and proceeded to the grounds where speeches by Geo. F. Root and R. L. Gaetz took place. Mr. Smith acting as chairman, and a splendid program of sports were carried out. The proceedings winding up with an exciting bucking contest, and a baseball match between Evarts and a Red Deer team in which Evarts boys were victorious by 9 runs to 1.

The chairman introduced R. L. Gaetz to the gathering, and Mr. Gaetz made a splendid stump speech, stating that he was well pleased with the nomination of Mr. Root as the candidate of the Conservative party, and he would use his best endeavors to see him elected. He said it was an outrage that while 70 per cent of the voters were farmers we had so few in Parliament. Mr. Root was opposed by some because he came from another country, but that should make no difference. He hoped the farmers would all

support him.

Mr. Root, on rising, apologized for the absence of Mr. Hyndman, who could not be present. He congratulated the people of the beautiful district of Evarts on their splendid crops, fine cattle, and abundance of hay. Peter Talbot said not more than 10 per cent of our cattle was fit for export. He claimed 30 per cent was nearer the mark. He would use his best endeavors to have the embargo raised, and he believed it would be raised soon. He desired to see a better market for our cattle, and discussed the cattle question at length. He was strongly in favor of a railway for the west country, and would use his best endeavors in that direction. He was favorable to the building of the Hudson Bay Railway. He asked for the support of all fair-minded men who wanted clean government, and would up a splendid address amidst cheers of those present.

BASE BALL.

An exciting game of base ball took place between Evarts and a team from Red Deer, Evarts coming out ahead by 9 runs to 1. The Evarts team consisted of: Branton 1b; Wilson cf; Johnson 1b; D. Smith cf; J. Robinson 2b; McCardle 3b; S. Smith ss; Foster p; Britting rf.
 The Red Deer aggregation consisted of Harry Hill lf; Galbraith cf; T. A. Gaetz rf; McDonald 1b; Payne 3b; Johnson 2b; Wilson 1b; S. Mokenzie c; Porter p.
 The only run that was made went to the credit of Galbraith thus the power of the press was again demonstrated. M. A. Munro was umpire.

During the afternoon H. B. Hill received word of his election by acclamation and a speech was at once demanded, and as quickly responded to, in Harry's ever-ready manner. He was hoisted to the top of an empty but eratic flour barrel, and was just about to thank the audience for their kindness when the head of the barrel gave way and he disappeared within amidst great applause. This disconcerted Harry's usual cool demeanor and he declined to further address the people.

In the evening a dance was held in the school house when the building was crowded to the door with the fair daughters and sturdy sons of the settlers. The district who tripped the light fantastic till the wee sma' hours. A contingent of the young men from town remained chaperoned by Councillor Bottrill and Dr. Collier. It is needless to say they were well taken care of.

Barley and fall wheat harvest will be complete this week. Oat cutting will be general next week.

SCOTT HAS GOOD MAJORITY.

Government Carry 23 Seats,
 Opposition Carry 14.

Of Three Doubtful Seats, Probably Two Liberal.

Regina, Aug. 18.—The latest election returns indicate twenty-three certain seats for the government and fourteen for the opposition, with three seats, Battleford, North Battleford and Moose-Jaw county, still in doubt. Of the government seats new elections are certain in Lloydminster and Weyburn, as in the former H. C. Lisle will be disqualified because he is a resident of Alberta, residing just across the boundary line, while in Weyburn Dr. Mitchell's majority of 28 is less than the eligible vote of the qualified polling subdivision, where 63 electors were disfranchised because the deputy returning officer was not sworn, and on account of which the returning officer will declare no return. The Liberals claim Kinsistau, which at present figures in the provincial righters column, and contend that Langley has a majority of 113 with two polls to hear from. There is an evident discrepancy in the figures and if this seat goes Liberal the opposition total of certain seats will be reduced to thirteen.

Of the three seats in doubt, Dewar, opposition, leads in Battleford, but it is not expected he can hold the seat. In North Battleford, Finlayson, Liberal, leads and will likely be elected.

Following are the certain seats with the majorities, though several of these are not complete and are subject to amendment as the distant polls come in:—

LIBERAL.

Arm River—George A. Scott, 140 majority.
 Canington—Stewart, 178.
 Canora—Robertson, 251.
 Duck Lake—Turgeon, 142.
 Estevan—Bell, 300.
 Francis—Stevenson, 100.
 Langley—Neil, 94, one poll out.
 Humboldt—Neely, 390, 3 polls out.
 Lloydminster—Lisle, leading and election likely.
 Moosemin—Smith, 70.
 Pelly—Johnson, 32.
 Redey—Langley, conceded, with several distant polls to come in.
 Regina City—Bole, 284.
 Rosthern—Ems, 210.
 Swift-Current—Premier Scott, 277.
 Saskatchewan city—McNabb, 77.
 Saskatchewan county—Sutherland, 13.
 Saltcoats—McNutt, conceded.
 Touchwood—Atkinson, 55, three polls out.

Vonda—Totzke, large majority.
 Wadena—Pierce, 380.
 Weyburn—Mitchell, 38.
 Yorkton—Garry, 223.

CONSERVATIVES.

Kinsistau—Johnston, 100. Several polls to hear from and Liberals claim seat.
 Last Mountain—Anderson, 246.
 Milestone—Whitmore, 92.
 Moose Jaw city—Wellington, 81.
 Moose Mountain—Elliot, 85.
 Maple Creek—Wylie, 12.
 Pheasant Hills—Willway, 180.
 Pipestone—Gillis, 383, opponent loses deposit.
 Prince Albert city—Bradshaw, 180.
 Prince Albert county—Donaldson, 165.
 Qu'Appelle North—MacDonald, 115.
 Qu'Appelle South—Haultain 374.
 Regina county—Tate, 341.
 Souris—Riddell, 485.

HOW THE PEOPLE'S MONEY
IS SQUANDERED.

Story of the Speedy.

Indirectly connected with dredging is the engaging story of the steamer "Speedy," purchased in 1904 in New York, second hand, for the purpose of towing dredges and barges on inland waters. On the side, so to speak, the Speedy has been used as a "despatch boat," that is to say, by the Minister of Public Works and other politicians to go on little jaunts of their own. There are still two or three Ministers who have no private car, and have to be content with a yacht. Mr. Brodeur's yacht is disguised as an ice-breaker, and has some \$3,000 worth of silver plate and cut glass in the dining room. The corresponding boat on the Pacific is called a light-house tender. On the Atlantic the like crafts are supposed to protect the fisheries. But we have now to speak of the towboat "Speedy."

PLUS COMMISSION.

Mr. Howden, Superintendent of Dredging, testified to the Public Accounts Committee that he went to New York and purchased this boat for \$35,000. True there was a further sum of \$1,750 commission, but the officer explained that this was paid to a New York broker. The boat was seven or eight years old and was bought furnished ready for towing.

CRUISE OF THE PIANO.

On the passage to St. John the "Speedy" encountered rough weather. Her piano, a necessary part of the towing outfit, broke loose and smashed the dining room table and chairs. Therefore the following bills:

Mahogany table	\$100
11 dining room chairs at \$12 each	132
Arm chair	10
Total	\$242

With this mahogany furniture and the piano uninjured, the "Speedy" might be expected to commence towing at once. But it was found that her boilers were insufficient.

This was put right by an expenditure of \$17,500. Then it was discovered that the "Speedy" was still unsuitable for towing St. Lawrence dredges. She was placed in the docks of the Pelson Company for treatment.

A GORGEOUS TOWBOAT.

The bill in 1906 was \$22,475. It included the following:

New electric light outfit	\$3,000
New deck, new cupboards, new galley	3,500
New deck cabin, new smoking room, new bathroom, new upholstery	2,780
New wheel house and chart room, a suite of apartments in mahogany and teak, with first-class upholstery	3,300
Another new bathroom, new closet two more new staterooms, more electric light fixtures, steam heaters	4,450
Another new closet, another bath outfit, linen hamper, etc.	1,500
Up-to-date plumbing, etc.	1,377
New refrigerator	190
Another new pantry	403
Extra lights, chandeliers, etc., in the dining saloons	397

UNIFORMS TO MATCH.

The cursory observer might think that with electric lights, several luxurious cabins, smoking rooms, numerous bathrooms, suites of chambers, elegant staterooms, a piano, mahogany chairs and superior upholstery, the "Speedy" would pull barges and dredges from one port to another with good effect. Still something was lacking. The officers and men, especially the cooks, stewards, waiters and waitresses must have livery to match. We turn again to the Auditor's report and find:

8 officers' suits at \$22 each.	
7 men's suits at \$17.50 each.	
Uniform for the stewardess, \$25.	
8 caps at \$3 each.	
7 caps at \$1.50 each.	
17 reefers at \$15 each.	
etc., etc.	

And in 1907 we find the same programme repeated.

A NECESSARY CONSEQUENCE.

Having equipped this heavily officered craft, Captain Howden made another discovery in finance. He learned that uniforms cost more than their price. In her labours as a tow-boat, the "Speedy" required large quantities of such provisions as oranges, pears, plums, French peas, spring chickens, Radnor water and other supplies, for particulars of which see Public Accounts.

The Public Accounts Committee asked the captain to explain why he had to pay 18 cents a pound for his spring chickens and other high prices for similar supplies absolutely necessary for proper towing. Here is his testimony: "I will explain how the price was increased. If you are dressed in the 'Speedy' outfit, with brass buttons on, and go into the

store to buy chickens, invariably they charge you just about double what the chickens are worth."

His further explanation was: "We have the patronage list, but sometimes when they get on the patronage list they think you have to buy from them and up goes the price."

The Royal Commission made the same discovery.

GRAND, BUT COSTLY.

The result of these things is that the "Speedy" has down to this year cost over \$100,000, and has done about as much towing as could have been performed by a private craft for a twentieth of the money.

ANOTHER LIE NAILED.

(Carmore Mail.)

"Don Hiebert, of Didsbury, is never tired of telling the country that he defeated Dr. Clark, but he always forgets to say that it was a three-cornered fight and the votes of the other two put together were more than his."

The Red Deer paper is wrong. It was not a three-cornered fight, for the third man, Reid, didn't poll scarce a dozen votes. It was Clark or Don Hiebert, and the people spoke in favor of "the little Russian." We ought to know for reasons our Red Deer editorial brother knows.

The Mail further says:

"The funniest thing and the most absurd in Alberta politics is the figure of Dr. Clark, of Olds, posing as a practical farmer. You should see him wield the hoe. This man who is achieving to become an M.P., is the man who was willing, just previous to the last provincial election to stand as a Conservative, go, so far as to say that he would consider such a nomination. Then he ran as a straight Liberal but failed to get the nomination. Then he came out as an Independent Liberal and the Liberal machine saw the predicament they were in and Charlie Cross, Frank Oliver and Duncan Marshall got busy and there was a little conference; things were fixed up and the regular Liberal candidate was dropped like a hot cake. Clark, he ran and ran behind, didn't even carry his own neighbors in his own local electoral district. Dr. Clark would make an ideal machine member of Parliament, but those times are slipping by real fast. The people have a little more time to look into those things and are having a little more to say."

With regard to Mr. Sheppard's letter in the News two weeks ago we might say that Mr. Sheppard admits that he hasn't met Dr. Clark since they parted in London 17 months ago. He has said all that his conscience will permit to give him a boost, and then "trusts the Dr. will not let the machine run him." There's the rub. The machine have got him. He was not the people's choice. He was nominated by the machine. He and the machine succeeded in driving all the independent men out of the Liberal rank. The acceptance of the provincial patronage and of the Dominion patronage has advertised him to the world as the photograph of the Liberal party; its mouth piece for the Red Deer riding. If each one of the 19 fellow agricultural immigration agents should be asked to write a letter telling what they accomplished in England, it would not bring the Dr. one notch nearer to the farmers of the Olds neighborhood where he lives, and that's the place to apply your tests, where a man lives, and that's the place to apply your tests, where a man lives. The News asks what has Dr. Clark done for the farmer or for farming, for good roads, for rural schools, for farmers' organizations, for agricultural fairs? What has he done in any line pertaining to rural life to prove himself in touch with common farmers?

The footprints of Dyspepsia have been daily traced to the stomach nerves. When these "inside nerves" fail, indigestion and stomach distress surely result. For this, druggists everywhere are supplying a prescription known as Dr. Shoop's Restorative. First, the inside of the stomach, heart, and kidneys follow. Don't drug the stomach, or stimulate the heart or kidneys. That is wrong. Strengthen these failing nerves with Dr. Shoop's Restorative. It is the nerves, not the organs that are calling for help. When 48 hours after starting the Restorative treatment, you will realize the gain. A test will tell. Sold by Brown's Pharmacy.

THE FAVORITE.

His manners are attractive. His compliments are neat. And these conspire to make him The man you like to meet; His smile is warm and cheery, His eyes with gladness glow. You like to see him coming And hate to have him go.

He isn't any truer Than any other friend; He isn't any stancher His comrades to defend; He doesn't seem effusive, Endeavoring to please, But still when he is present It puts you quite at ease.

And everybody likes him. It isn't you alone; He counts his friends as legion Wherever he is known; For every one will say That he is a true friend because it is his way.

But analyze the method That all this friendship brings; You'll find that he is careful In just the little things. In larger ceremonies He may perhaps be shy, But never slight the trifles, And that is the reason why.

Work For the Repair Shop. Science, which has been busy as a kid in a candy store in the past year, is about to prove that animal energy is developed by electricity and that the human body is a battery for generating the subtle fluid from the pure food products the person absorbs at a banquet, a free lunch counter or elsewhere.

After the theory has been developed more fully perhaps when we are sick we shall send for an electrician in the box of the gentleman with the pill box and crossed saw, as in the present transitory state.

The thing is all hazy and nebulous as yet, but it may not be so long before a man will take his loved ones to the repair shop when there is anything the matter with them and tell the kooky but patient mechanic to take them into the back room and see what he can do for them.

About Dogs.

I do not think that anyone can love dogs, or dumb animals, more than I do, yet perhaps because one is a dog owner and breeder, one can know how very disagreeable a dog can make himself to his neighbors, writes a lady in an Eastern paper. There is the dog who barks all night and never appears to tire of it; there is the dog who roots up flower-beds and destroys lawns. There is the dog—generally some big fellow—who snaps at passers-by and scares women and children, and bites at times; there is the terrier—our own Punch has this habit, by now, well nigh whacked out of him—of silently springing out and catching a lady's skirt. He is perfectly harmless, he is simply hypnotized by the swinging skirt, just as he is by running wheels which he attacks noiselessly—but he frightens the woman. Dog owners cannot blame strangers who are thus frightened, and while we have to protect people, children especially, yet it is fair to tax us for our dogs and then make a law by which we must lead them abroad on chains. It is not. If the Board of Control, or any other municipal party in power, insists on this dog leading, let it do away with the dog tax. When we pay, and pay well, for the privilege of keeping our dogs, we pay for liberty for them. Better pass a law ordering the destruction of all city dogs than take our good money and compel us to lead our old friends about with a chain. Another thing. The statements of children who were being bitten, ought to be well enquired into. Children tease dogs, cats, horses. Time and again have I had to order cheeky youngsters away and crack a whip at them, when they were trying to kick a nervous dog, or start a charivari under her nose, in order to frighten her into running away. How often will you hear a child call "Here, dog, dog!" and if the animal comes up, the badly-raised, and impatient youngster will kick or stone it. Before you interfere, Messieurs the Council, or Board of Control, pass a by-law enacting the decent bringing-up of Canadian children. When impatient youngsters and smart Alecisms are drummed out of the children, and they are taught manners, decency, and gentleness, it will be time enough to order the dogs on the chain. Only a week ago, I saw a child who had been pushed by a collie—rue to her mother shrieking, "He bit me! he bit me!" Poor old woolly coat had not even looked at her. He was quietly pursuing his honest way when the child—a bold-faced youngster—ran into him, and trying to kick him, fell off the sidewalk. Of course, the mother got angry and doubtless sought out the dog owner and demanded redress. We apparently gallop from one extreme to the other. Let, then, an order for the wholesale destruction of dogs be sent out, or else take off the dog tax if we cannot compel the lead our dogs on chains. Let bench shows be stopped. But to half measures, please. Meantime it would be well to copy Britain and the Old Land in the matter of bringing up children and teaching them what is wholly lacking in this country, manners, some reverence for their elders, and less of the inherent cruelty which seems born in every child that comes into the world. We often hear about the bad manners of "American" children. Suppose Canada looked at her own eyes for beam or mote and plucked it thence?

SHOULD HAVE LANDS.

Fort Qu'Appelle, July 30.—Hon. W. J. Hanna, provincial secretary, of Ontario, was here today on private business, and declined to discuss the political situation in this province further than to say that if Saskatchewan does not get the lands, timber and minerals the province will always be in financial trouble. These are the backbone of Ontario's strong position today.

Geo. St. Clair returned from England recently. He was down to Fernie securing views of the fire to send to England, Australia and other countries previous to coming to Red Deer.

Mr. and Mrs. Jacobson have taken up their residence in Calgary. Mr. Jacobson will carry on the wholesale business of the Alberta Jewellery Company there. Mr. W. A. Allen, late of the town clerk's office, has charge of Mr. Jacobson's books in Calgary.

GIVE A FAIR JUDGMENT.

The Advocate's plea for "A Fair Judgment" is more of an appeal for personal sympathy for Laurier than a dispassionate resume of reasons why a Fair Judgment would be favorable to the retention of Laurier in power. Laurier is like the captain of a fair ship loaded with barnacles which are dragging it to the bottom. The Liberal party is no longer seaworthy. The splendid achievements which were promised and hoped for when Laurier took the helm did not materialize. In spite of all the money spent on an immigration policy, the population has only increased 20 per cent. in 12 years. The birth rate should have equalled that. The fostering care of agriculture has not passed the theoretical stage. The fostering care of the militia has become a scandal rather than a respected means of defence, and although the government understands full well the evils of the patronage system, it made no effort to check or remove it, but gave the wealth of the people freely to plunder, or provender if that term is preferred, for party favorites. The Canadian people have been long suffering, and patient, and loyal, but a time comes when patience ceases to be a virtue, and that crisis has arrived. Ontario has pronounced in favor of a change. New Brunswick has pronounced in favor of a change. Quebec is slowly crystallizing sentiment in favor of a change. Saskatchewan has pronounced in favor of a change. The Liberal party have sowed to the wind; they are reaping the whirlwind. And the tragic thing about it all is that a Canadian leader of many years will retire from office, not with the love and reverence and honor of a united people, but with a reputation stained and clouded by the very men whom he lifted to high places in the council of the nation. Fair judgment demands a change. To the credit of the nation their verdict, so far, has been in favor of clean government.

If the News was 12 months out of its history regarding Dr. Clark's work in England, it received its information from a subsidized paper which has undertaken to champion the cause of Dr. Clark. It was assumed that the Advocate, not being in connection with work done in England by the candidate, received its data first hand. This is another illustration of the fact that the Advocate cannot be relied upon when discussing party men or party politics.

If the series of articles re the British Embargo which have been flooding the ministerial press ever since that subject was agitated by Mr. Root at the Stock Growers Convention are reliable, then Canada as a colony, and the interests of Canada among other colonial interests, are very insignificant. The eight thousand dollars spent by the government in sending Premier Laurier and his toadies to the Preferential Conference and the other thousands spent by England in entertaining them were productive of nothing but spectacular effect. Orators love to talk to Canadians about being the most important colony of the Empire, and every Canadian, irrespective of party, is willing to build up the Empire by giving Britain a preference in trade conventions, but every Liberal paper is impressing upon the people that no relief may be expected on the embargo.

This position instituted by the American meat combine who are controlling the British markets for the first time? They, and they only, would be harmed by its removal. At present Canadian cattle must be sold within ten days of arrival at the great firms. Armour & Swift bear the markets and whenever prices go down buy everything to put in their coolers until prices are up and then take the profit. Neither producer nor consumer is profited by the transaction. The very Britons who are supposed to be benefited by this law are clamoring for its removal. But Liberals insist it can't be done. Another appeal for gallery plaudits is the article on the tariff and woollen industries. We all know that there are no politics in the manufacturers' association. They are out in their own interest. The policy of the Conservative party to induce manufacturers to start in Canada by protecting infant industries by an adequate tariff from being swallowed by their larger neighbors south of the line as was recently the fate of Canadian woolen manufacturers is a system of bonuses and the admission of all raw material free and a special bonus on all goods exported. If this appeal of the woollen industries for relief was bona fide it is to be regretted that they were not turned down without the promise of aid in some form. When it comes to the transaction of business of this nature, monopolies and manufacturing associations do not

approach the government by telegram for publication. It is quite safe to accept the machine editorials that come out simultaneously in all the subsidized papers with a very liberal grain of salt.

The farmers are waiting to see what Rice Sheppard's next move will be. If the machine is playing him for the influence he is supposed to have with farmers we may expect him to offer himself as an independent candidate in the Red Deer riding so as to make a three-cornered fight. It is generally conceded that without some such surprise package the election of Mr. Root is assured. In the event of Mr. Sheppard coming out in this role he may find like Commissioner Stevens that one false move will destroy the contention which it has taken months to establish.

Council Meeting.

The regular meeting of the Town Council was held Thursday evening last, his worship Mayor H. H. Gatzler in the chair, with Councillors Pidgeon, Botterill, McKee and Tallman in attendance.

A number of letters re. debentures were received and filed. G. Percy Blythe wrote that his chief assistant would leave to complete audit 28th July. The accounts were reported audited in due course.

The Chief Clerk Inspector of the Department of Agriculture wrote regarding plates of noxious weeds would be forwarded to the Council as soon as completed.

Jas. Stett wrote he had been appointed Inspector of Electricity for Alberta and asked for information re electric light meters, etc.—Filed.

R. Archambault wrote from Vancouver that he understood his taxes were paid, as he had left money for that purpose.

He was informed by the Secretary-treasurer that there was no record of his taxes having been paid.

John S. Hall, hon. secretary of the Union of Municipalities, requested the Council to select delegates to convention in Edmonton in September.

Mayor H. H. Gatzler wrote: "that in view of the fact that there is no likely to be any more work undertaken this year, and that for the balance of the year the work of the office will consist chiefly in the ordinary routine which can be very well taken care of by Mr. Stephenson and his assistant without the necessity of my giving a large amount of my personal attention to it. I would request that you cancel the allowance which you were good enough to vote to me as mayor and commissioner, take effect from the 1st of Sept. Of course I will continue to give all the time and attention to the duties of both offices as is necessary, but I shall be relieved from a large amount of the detail work and shall be able to devote my time largely to my own business."

I am greatly pleased with the way in which my new secretary-treasurer is progressing with the work and the grasp he has got of the situation in the short time he has occupied the position, and feel that he will assume even a larger share of the responsibility than at present. Altogether you are to be congratulated on the appointment."

The following accounts were passed: South & Gatzler, \$24.15; Gatzler, Corner Drug Co., \$13.85; W. Springbett, \$5.50; R. C. Brumpton, \$61.05; Gatzler & Gatzler, \$3.00; Red Deer Concrete Co., \$50.10; Ilsey Bros., \$2.35; Canada Fairbanks Co., \$11.79; S. Long, \$120.39; Copland, Chatterton Co., \$2.12; Munro Bros., \$5.50; Town sheet for July, \$50.30; Red Deer Brick Co., \$121.00; J. Broughton, \$800; J. McIntosh, \$5.00; J. L. Crawford, \$1.25; News Pub. Co., \$104.65; G. H. G. Neville, \$21.56; W. E. Payne, \$19.30.

A by-law to provide for a rebate of ten per cent on all taxes paid before the 1st day of Oct. passed its several readings.

Councillor Botterill did not favor making the 24th a civic holiday. He thought as the stores would not close for the fair they would not feel like closing for civic holiday.

He felt it would almost be impossible for him to close his place of business this very busy season.

Councillor Tallman did not favor the 24th as a civic holiday. There was such a slaughter of young ducks on that day, that he did not think he should encourage it. The holiday ought to be a week or two later. He did not think there was any general movement in favor of a holiday on the 24th. Labor Day will be on Sept. 7, which is statutory holiday, and would be soon enough for most people.

No action was taken.

Councillors Botterill and Tallman moved that the Mayor in wiring the Mayor of Fernie to draw on Red Deer for \$100 be approved, and that the Mayor and secretary be, and are hereby authorized, to issue a cheque to protect the draft when made. Carried.

Councillors McKee and Tallman moved that the request of the Mayor re. his letter to withdraw the small amount paid him, be granted, as he thinks that the secretary-treasurer and his assistant can do the work from Sept. 1st. Carried.

Councillors Pidgeon and Tallman moved that Councillors Botterill, McKee, the Secretary-treasurer and the Mayor be appointed the delegates to the annual convention of the Union of Alberta Municipalities and that the subject we desire to have presented is Municipal Legislation. Carried.

COMMISSIONER'S REPORT.

The receipts and disbursements for

the month of July have been tabulated and are presented herewith.

The Medical Health Officer reports no cases of contagious or infectious diseases during the month of July.

The books were audited at the end of July, but the Auditor's report is not to hand yet.

The spindle on the hydrant at corner of Gatzler Ave. and Alexander St. was reported broken. New parts have been ordered for repairing it.

The pipes at the sewer outlet have been repaired. The engineer recommends that all the sewers be flushed at an early date.

Foreman Milfin was granted a week's holidays, and Foreman North has requested a week's holidays at the end of the month. Where recommended that he be granted them.

The Chief of Police has been instructed to have owners or occupants of the catch basins with noxious weeds notified to destroy them. This is being done.

The agreement and lease with the Red Deer Concrete Co., also the easement for right of way from Western General Electric Co. have been completed.

The cemetery has been cleaned up, grass and weeds cut, gates changed to the centre of the South Line, the posts put in, and the roads ploughed and levelled.

A letter was published in the Advocate and News explaining the reasons for withdrawing and revoking the by-laws now being advertised, and copies of these papers were sent to the municipal and financial journals asking them to publish the letter for the information of investors.

The Mayor of Fernie was instructed to draw on the town for \$100.00 for the relief fund. Telegram was acknowledged with thanks.

Extracts from the Health Rules have been printed under 3 heads, kitchen garbage and wastes, privies and stables. 500 of each of the first and 300 of the third were ordered. These will be distributed at once.

The engineer recommended the purchase of the electric pump from the Canadian Westinghouse Co. at a price of \$708.10, F.O.B. Red Deer. This has not yet been ordered pending the obtaining of written permission to install an electrically driven pump in place of a steam from the Western General Electric Co.

The liquidators of the Beatty estate have requested that the water be not turned off the Alberta Hotel as the Court has appointed a receiver. They agreed to have the amount of rates for the current quarter paid before the end of July, and the arrears as soon as possible.

Mr. Patterson, of the Red Deer Concrete Co., interviewed the Commissioners and stated that unless the town could take some severe pipe this fall they would have to close down their plant for the present until they had disposed of stock on hand. He was informed that it was not probable that the town would use any this fall consequently the plant has been closed down. The Commissioners agreed subject to the ratification of the Council to allow the rent to remain uncollected for the present and collect it when the town first bought sewer pipe from the company.

The negotiations with the Stratford Mill Co. re mill property are shown in the correspondence. We have also had a man from Evans looking over the mill with a view to leasing it. The Stratford Co. have been asked to write their terms for leasing the machinery and we are hopeful of shortly arranging a deal whereby the mill and elevator will be operated this fall.

On checking over the assessment roll an error of \$7,000.00 was found in the amount of property liable for Municipal and Debenture taxes. The amount should be \$1,414,535 instead of \$1,407,535. We ask your authority to correct the figures in our report of July 9th, to correspond with these figures.

W. Cousins, of Medicine Hat, has been notified of his appointment as arbitrator for the town in the matter of the adjustment of rates with the Western General Electric Co., and the different towns and cities in Alberta and Saskatchewan have been asked to submit rates charged. These are coming back now. We recommend that Mr. Walsh, of Calgary, be engaged to act with the town solicitors in preparing and presenting the town's case.

We have inspected the streets where sewers have been laid under the Reinhold contract and found some repairs necessary. We also find some work necessary on Mann St., Ross Ave., Douglas from Nanton to bridge, Nanton Ave. and Alexander St. We are finding out the cost of getting a grader for a few days work and ask your authority to have this done. There is sufficient to the credit of the Public Works Account to do it.

Following is the cost of the catch basins completed.

Exciting Cricket Matches.

Wednesday evening last 15 baseballers had a most exciting game of cricket with the Red Deer Club on the grounds in rear of the Fire Hall. There were a number of spectators present who took keen interest in the game. Neville got double numbers for the cricketers while Morre piled up six for the ball players. Stevenson was playing a good steady game for his side when it was retired. Following was the score:

A return match was played Friday evening and again the ball tossers were victorious the score standing 31 to 39 at finish. Plaxton alone got double figures, Crawford coming next with seven runs and Westgate with six. The bowling of Stephenson and Mann was very good. The batting of the cricketer club was their weak point and they need to spruce up in this respect before they play a match with an outside team.

Following was the score:

How The Senate is Reformed.

(Toronto Mail and Enquirer.)

One of the many impostures practiced by the Laurier Government is that having reference to the reform or abolition of the Senate. In the nineties the party leaders were very much exercised over the position of the Upper House. They complained of its cost. They alleged that it was irresponsible and useless. Some said they would "reform" it. Others promised to wipe it out. Sir Richard Cartwright, in his address to the Patrons of Industry suggested abolition. He said:

"Let us further analyze the Patron platform. Let us take first plank, the abolition of the Senate. Here the vast majority of the Ontario Liberals will certainly agree with the Patrons. The existence of such a body in its present shape is absolutely indefensible, and is a manifest blot on representative government."

The party convention of 1893 took up the question and issued a condemnation of the Senate. It said:

"The present condition of the Senate is inconsistent with the Federal principle in our system of government and is in other respects defective, as it makes the Senate a representative of the people and uncontrolled by the public opinion of the country and should be so amended as to bring it into harmony with the principles of popular government."

This resolution was the case with all others passed at the convention, pointed in that direction. Those who desired abolition might find looked for it. Those who merely looked for an alteration in the constitution were able to argue that nothing more than that was proposed. While the party was calling for both abolition and reform, Sir Wilfrid, then Mr. Laurier, was careful not to be too definite. But he was for abolition all the same. In his Montreal speech in 1899, wherein he propounded a scheme to render the Senate subservient—a plan that was laughed out of court—he thus expressed himself:

"Formerly I was for the abolition of the Senate, but as I grow older and learn more of the country my radical ideas have become modified. I do not say that I am a Bleu, but I have acquired conservative ideas in the roughest sense of the word, and I believe that we should not suppress, but reform the Senate."

According to Sir Wilfrid himself he was for abolition until 1899, when he dropped that idea and adopted instead the milder policy of reform. Now abolition has not come. Not a step has the Government taken in that direction. So completely has the Ministry turned over on this subject that Sir Richard Cartwright, who told the farmers that the Senate was "a manifest blot on representative government," has appointed himself to the Upper House, thus making the blot much larger.

Nor has there been any reform. The only changes the Laurier Government has made in the Senate are three, not one of which will be regarded as highly satisfactory. They are the following:

1. The abolition of the old chaplain in the interest of economy, by which a saving of \$500 a year has been effected.

2. The appointment to the Senate of defeated or extinguished politicians from the Commons-men who have severed the Government and are still subservient to it.

3. The increase of the salaries of Senators from \$1,000 to \$2,500 per session.

The direct results of those reforms are the creation of a Government majority of 29 in the Chamber, and the increase of the cost of the Senate from \$135,843 in 1893—the year when reform was promised—to \$269,075, or practically double in 1906.

Blackbalds.

The School affairs continue to hold the best attention of the Trustees. We understand they have engaged two teachers in place of Mr. McNichol whose abilities as a teacher don't require this paper's testimony. There are many things we would like to see adjusted on a more satisfactory basis. The Public Hall which we think is the property of the Secretary has been engaged as a School Room. We have two fire escapes at one end of the room, let us hope that the fire won't start at that end first.

Elections in November.

Winnipeg Tribune.

It was learned Tuesday on reliable authority that word has reached the faithful in the city from Ottawa that the Dominion elections will be held next November, no matter what the result of the elections to be held in Saskatchewan on Friday next.

A caucus of the Liberals was held just prior to the breaking up of the last session of the House, and the fact was communicated to the Liberal members that it was the government's intention to go to the country this fall.

The programme is that the dissolution of the present parliament will take place early in October. The Tribune's informant, who is in a position to know, stated today that the present plans of the Laurier government called for nominations on or about November 12.

The Liberals in Winnipeg have, it is said, been notified of the government's intention, and are preparing to put a candidate in the field. As to who will carry the Liberal standard there is doubt at present, but the faithful are said to favor the candidature of D. C. Cameron, while others would like to see a showdown run in the party's interests.

Ames at Regina.

A report of H. B. Ames' address at Regina says:

"Leaving the legislation aside he devoted his entire two days to depicting from actual photographs from timber scenes, agricultural scenes, irrigation scenes and the original documents at Ottawa by which the immense province of Saskatchewan and Alberta are being stolen from the people by dummies of Burrows, Turfitt and other friends of Sifton at a rate that will soon render the people with all their immense natural wealth in a few years ago, a pair of penniless provinces without land, without timber, without coal, and without the right to fish, and all to enrich the greedy Burrows and Company."

False and Malicious Attacks on Foster.

The Edmonton Bulletin is never tired of making false, malicious and uncalled for attacks on Hon. George E. Foster.

It will be remembered that during the last session of the House of Commons Hon. Mr. Foster rose to a question of privilege and read a statement of Sir Frederick Borden which seemed to charge that Mr. Foster, while manager of the Trust company, bought land for that concern and took for himself a commission off it.

Mr. Foster said this statement was wholly and absolutely untrue and he gave Sir Fred opportunity to retract or prove it.

Sir Frederick said he was inaccurately reported in Hansard, but he meant to charge that Foster received commission on lands bought for the Union Trust company. His proof would be found in the speech of Mr. Aylesworth last session which he proceeded to read. (Laughter.)

Mr. Foster said Sir Frederick had now substituted another statement but directly false.

I say that the charge is false, I brand the statement of the minister of militia as false and demand retraction said Foster.

Sir Frederick said that he could not withdraw the statement of Mr. Aylesworth.

Foster—I only ask the minister to withdraw his own."

Rev. C. W. G. Moore gave his Sunday School class an outing at the lake last week.

The road near the lake is rather rough in spots. John T. Moore has been seeing to it but as his men have been only using spades on the road it is probable the grant will play out before the road is much better.

Sylvan Lake.

Greene & Payne's boat-house certainly makes things much more comfortable here, as a good boat or bathing suit can be obtained at any time.

Rev. C. W. G. Moore gave his Sunday School class an outing at the lake last week.

The road near the lake is rather rough in spots. John T. Moore has been seeing to it but as his men have been only using spades on the road it is probable the grant will play out before the road is much better.

August time tells on the nerves. But that spiritless, no ambition feeling can easily and quickly be altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative improvement will be noticed. Of course, full health will not immediately result. And best of all, you will realize and feel your strength and ability as it is returning. Outside influences depress first the "inside nerves" then the stomach, then the brain and kidneys will be weakened. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by Brown's Pharmacy.

Piles helped at once with Dr. Shoop's Magic Ointment. Just to prove it, a trial box will be mailed on request, by writing Dr. Shoop, Racine, Wis. Itching, smarting, bleeding piles, internal or external, get quick and certain help from Magic Ointment. Large box 50c. Sold by Brown's Pharmacy.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

The folly of a wise man is more exasperating than that of a thousand fools.

The man who is punctual and persevering stands to make good for his entire list of friends.

There are ladies that are of such loveliness that their husbands always look nothing but time they take up a thin looking envelope.

Being popular consists in the main of knowing a great many unremarkable people.

A calm married life ought to follow a frenzied courtship, but it seldom does.

It is just as sensible to eat your dinner by proxy as it is to make friends by proxy.

Stand by the truth and break the devil up in business.

It is possible to take such good care of your conscience as to keep it from being disturbed by anything going on.

It is extremely hard to make good when you feel bad.

One way to be executive is to do it yourself; another and more proficient way is to get others to do it.

Same Thing.

"Fear about old man Spuds? He has sold himself into slavery."

"But they say he is wealthy."

"Rolling in the coin."

"But I thought the days of slavery were over. How did he do it—marry a young wife?"

"No; he has hired a professional chauffeur."

Could Beat It.

"Do you know what we have raised?"

"No. What?"

"A family tree."

"Do you know what we can raise?"

"No. What?"

"A breeze that will blow your family tree into the middle of next week."

Leap Year Delusion.

If you are such a beautiful boy, you hide away when she is near. Or if she gives you half a chance, cut for the timber late in fear.

If the description suits you, I'll pray, how do you, my lad, suppose the leap year lady ever will get near enough, sir, to propose?

She cannot stand across the street and shout it as you saunter past. Or run out madly from the house and say, "I've captured you at last."

She cannot from an upper floor call to you through a telephone. Or clear across a candy store, propose to you in ardent tone.

Of course, if she has mind to write. The mail is there for her command. With two cents and an envelope. She can nor feeling, warm, expand. Or she could use a telephone.

And call to you in accents sweet Or in response to your "Hello."

Might say, "Well, how about it, Pete?"

She might do these, but she will not. For if you get her to propose, you'll have to take her by the hand and all your inner heart disclose. To lead her gently to the point. In fact, it is a better plan. And one that always makes a hit. To beat her to it if you can.

Pensioning Ex-Presidents.

Grover Cleveland thinks that our ex-presidents should be pensioned. As Mr. Cleveland is one of the largest and most shabby ex-presidents now before the public, his opinion should be given some weight.

It is true that the salary is large, but as the president must dress well, take all the magazines and in other ways make a noise like a millionaire it is much harder for him to save money than it is for the man with a paltry salary of \$20,000 who has no public or social obligations.

It isn't pleasant for a man who has been president to engage in the rough and tumble of business, crowding out poor boys who have risen from the ranks and need the money to support their families, and a grateful country should make ample provision so that he may live in dignified retirement without having to wrestle with the bread and butter problem.

Axiom.

"My dear, if you don't let me have that new hat I shall die."

"Well, you will die if I do, so what's the use?"

Makes It Endurable.

There is a pleasure in the pathless woods, Indeed a pleasure that can never pass. If you are short upon the needed goods And some old money shark is on your trail.

Drive Rheumatism from the blood with Dr. Shoop's Rheumatic Remedy. Tablet or Liquid.—Brown's Pharmacy.

What is The Evidence?

(Hamilton Herald.)

It is asserted in behalf of the C.P.R. striking mechanics that the company is bent upon disrupting their labor organizations, and that it was necessary for them to strike in order to save their organizations from extinction.

If that were the issue involved in this industrial dispute—the right of the men to organize themselves into labor unions, it would be an easy matter to decide as to the merits of the dispute. Justice and right would in such a case be clearly on the side of the strikers.

No evidence, however has been produced to substantiate the charge made against the company. So far as the general public knows, the charge rests upon mere assertion. And it is only fair to state that responsible officials of the company declare that the C.P.R. has no desire or intention to interfere with the rights of any class of its employees to organize, and is not antagonistic to trade unionism either in principle or practice.

Public opinion is not likely to be affected much by mere assertion. If the C.P.R. company has been endeavoring to break up the railway men's labor organizations, it ought to be possible to produce evidence to that effect; and if the evidence can be produced it ought to be.

No Place Like Home.

(Detroit News.)

Sh! This is a secret. Looking for a quiet place to spend Sunday? Ever try home? Quietest place in the world while all the others are out madly chasing and sweating after rest and quiet.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, flatulency, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve disorder—indigestion.

It was this fact that first correctly led Dr. Shoop to the creation of that now very popular stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that excess and favor to Dr. Shoop and his Restorative. Without that original and subtle vital principle, no such lasting accomplishments were ever to be had.

For chronic indigestion, biliousness, leaden breath and yellow complexion, try Dr. Shoop's Restorative—Tablet or Liquid—see how it will set what it can and will do. We sell and cheerfully recommend.

Mrs. Geo. Beatty has returned from a three months visit to the coast.

Mr. Geissinger entertained for a short time last week Mr. Coyle, of Milford, Iowa.

Jamieson & McKechnie have just received a car of No. 1 shingles from Vancouver.

The \$4,500 waterworks extension debentures have been sold at 98.13 to Michener & Caracallan.

Meeting of Red Deer Liberals is called for this Wednesday evening at the Alexandra Hotel.

Many campers are coming into town from the lake this week to take up the burden of life again.

Mrs. R. Wells left the hospital on Thursday last. She is not very strong yet but is much improved.

Simmons & England have opened up a buggy and wagon repair shop in the building just north of the Wright Agency. See Ad.

Hugh Baird was in town from Edmonton over Sunday. He reports business rather quiet in the northern town but looking up.

Old friends were glad to see T. F. Ellis out to church on Sunday last. Mr. Ellis can now walk by leaning on someone's shoulder.

Labor Day will be on September 7th. An excursion of Sunday Schools will be held from Wetaskiwin to Red Deer on that day.

The new C.P.R. bridge across the river is nearing completion and adds much to the looks of Red Deer, although it makes the traffic bridge look kind of shabby.

At a special meeting of the School Board on Monday afternoon Miss Blanche Ward was engaged to fill the vacancy on the staff of teachers in the Red Deer Public School.

Mr. and Mrs. C. E. Hall leave for Toronto and Eastern points on the 26th. Mr. Hall will take advantage of the trip to get the latest wrinkles in the dry goods trade from the wholesale houses.

The Ladies of the Presbyterian Church will hold a garden party at Waskasoo Villa, the residence of Mr. and Mrs. Joseph Wallace on Friday evening Aug. 21st from 5 to 9 o'clock. A good time may be expected.

Holy Communion will be administered in St. Luke's church after the 11 o'clock service, instead of at 8 a.m. next Sunday. The preacher in the morning will be the Rev. T. C. Fry, D.D., Headmaster of Berkhamstead School, England.

Jas. Cruickshank has sold his bakery business to C. Hamilton & Son, who will carry on the business in all its branches in the future. Jimmy has not made up his mind yet what he will do but he is looking at a proposition in Wetaskiwin and if it suits him he may move there.

Mr. C. Rhodes of the Bank of Commerce has been removed to Macleod, as yet no one has taken his place. Mr. Chapman of the same bank returned from his holidays on Sunday, and Mr. Maynard is taking his holidays this week at Sylvan Lake.

On Friday A. P. Olson left a sample of fall rye at this office measuring 7 feet, 10 inches in length. Never in our experience have we seen grain so long. It is more like fishing rods than grain stalks, and reminds one that Alberta is hard to beat when a hard-headed, practical farmer is at the business end of the transaction.

Edward Dawson, an aged accountant, who has kept books for several people in town, and making his home at the Arlington Hotel, was stricken with paralysis last Friday morning, and in spite of all that could be done for him passed away on Saturday. Deceased was father of Mrs. Guy Edgington, and the funeral took place from his daughter's residence Monday afternoon at 3 o'clock for the Union Cemetery, Rev. C. W. G. Moore conducting the service.

CHILDREN'S EYES

often need attention. Even very small children show evidence of eyestrain and should be attended to at once. If the child complains of pains in the head or eyes, is troubled with inflamed eyes or lids, discharges, stuffiness or appears stupid or backward in its lessons, you had better bring the child to our Mr. Gaetz for examination.

Mr. Gaetz has given special attention to children's eyes, and is in a good position to advise you. He will not recommend glasses unless they are necessary.

Rev. T. C. Fry, D.D., delivered a most excellent address in St. Luke's church Sunday evening last, bearing on the Pan Anglican Congress held at London, Eng. The speaker said this was without doubt, the most important religious gathering ever held in the history of the world.

Mr. L. J. Porter, R.B. Welliver's office, has been appointed registrar of births, marriages and deaths in Red Deer and district. Hitherto Red Deer has been without an official of the kind, and consequently the vital statistics of this district and town have been very meagre, despite the heavy penalties provided for non-registration. The appointment is a popular one.

J. P. Rice, owner of the Purdy block, had the corner for the rebuilding of the same to McKee & Cruickshank and a large gang of men are at work putting things in shape. Already the building is shaping into a fine structure better than ever before. There is talk of conducting a departmental store in the building by a number of local stockholders, but the scheme has not been fully developed yet.

While J. H. Soanell's team were tied in front of Hewson's barn on Monday night last something frightened them and they broke loose and ran away going north and through Jamieson & McKechnie's lumber yard and then south down Gaetz Avenue to Foster's. Coghill's stable where they were finally stopped. The rig was rather disabled but nobody was hurt.

Mr. Fred Fisher has decided to open a wood yard in North Red Deer, where he will lay down well seasoned wood, supply customers in Red Deer and district as well as ship to other points. Mr. Fisher has purchased from Mr. Webster three lots for a suitable site. The deal has been arranged at The Wright Agency who have sold considerable property north of Red Deer this season.

Dick Bley, of Evarts was in town yesterday arranging for the funeral of Michael R. Learned who died of appendicitis at Sylvan Lake on Monday. Deceased was a promising young fellow of sixteen, well and favorably known in the district. He will be buried at the Red Deer cemetery to-day where the burial service will be conducted by Rev. C. H. Huestis. Much sympathy is felt for the bereaved family of deceased.

A pleasant dance was held at the Evans' farm on Friday night last. Several young people came from Penhold and Horn Hill.

Mrs. N. Stewart is recovering from her recent illness. She was able to be outside for the first time on Sunday last.

Alfred Speakman, although much improved, has been ordered by the doctor to do no work for some weeks to come. Hard luck for Alfred isn't it?

David Parker has entered the hospital again with cancer in his neck. He will have to undergo another operation.

Evarts.

A Grand Socialist picnic will be held in athletic park, Evarts, Monday, September 7, Labor Day, when a full programme of games, horse and foot races, and other sports will be carried out. Prizes will be given for each event. Everybody welcome. A grand concert will be held in the hall, commencing at 8.30 p.m. (See programmes.) A dress ball will be held afterwards in the same place for those choosing to trip the light fantastic maze. Refreshments will be served in the annex. Admission 50c., with collection for music. J. H. Robinson, master of ceremonies.

Mr. Easign has his fine new house about completed. He will soon be leaving for his old home where he will spend the winter.

Mr. Baxter will soon be leaving for Helena, Montana, where he will spend the winter.

Lobstick Valley.

A slight rain to-day greatly refreshed grain and gardens, and made the temperature more agreeable; but the hot, dry weather which has prevailed for some time now, has proved of much benefit to those of the settlers who are putting up hay.

Fred McNeil started on the 2nd to join the party which is working on the road line a few miles north of Eekville.

The Henshawe brothers have returned to their homestead.

Mr. E. Wilton is spending a few days in Red Deer.

Mr. Maybon, the Presbyterian minister, held a meeting at Mr. Frodeen's last Sunday, and reports an attendance of thirty-five, which is quite a gathering for this part of the world.

We understand Mrs. Bradley of Golden Valley has been quite sick for some time, and has not yet recovered.

Trooper Patchett passed through here yesterday on his way to visit friends farther west. He has just returned from the Tercentenary celebration at Quebec.

Two large loads of supplies were hauled across Lobstick ford this morning, en route for one of the survey parties to the west of us.

Mr. Bureau expects shortly to spend a few days at Sylvan Lake with his wife and family.

Geo. Bailey is breaking for E. Bureau at present.
